Wiebke,  
One minor typo on p12 and that is it!  
Thanks,  
Chris

Hello,

Attached is the OX5034 risk assessment for a final look before signing. We are looking at 3pm for any comments on the current doc. That will hopefully provide enough time to make the edits and finalize the signatures this afternoon.

Chris, I have highlighted a section in Table 1 on p. 10 that explains why the arboviral study was classified as supplemental rather than acceptable. Please have a look and ensure that is accurate. John, I have added Chris' edits to the arboviral section but the language is otherwise unchanged.

Wiebke and Amanda
